You Can Do It!

4 KEYS TO A HEALTHIER YOU

We’ve done the research so you can jump right in and enjoy the results.

**Focus on Whole Foods**
Unprocessed whole foods retain more nutrients than processed, packaged foods. Create meals from “whole foods,” which are foods in their most essential, pure and basic forms.

**Eat Plant-Strong™**
Phytonutrients and fiber are only found in plants. Eat plant-based foods to get your fill of these vital nutrients.

**Choose Healthy Fats**
Whole plant foods contain healthy fats and more nutrients than extracted oils and other concentrated fats. Get your fats from whole food sources such as nuts, seeds and avocados.

**Consider Nutrient Density**
Nutrients—such as vitamins, minerals and phytonutrients—are essential for good health. Eat a rainbow of fruits and vegetables along with a variety of whole grains, beans and other unrefined whole plant foods.

BUILD A 
Better Plate

LEAFY GREENS & COLORFUL VEGETABLES
• Lettuce, spinach, cabbage, collards, kale, bok choy, watercress, chard
• Asparagus, broccoli, Brussels sprouts, carrots, cauliflower, green beans, corn, mushrooms, onions, green peas, peppers, tomatoes, zucchini

WHOLE GRAINS, STARCHY VEGETABLES & LEGUMES
• Rice, oats, quinoa, barley, buckwheat, millet, spelt, whole grain pasta
• Potatoes, beets, parsnips, pumpkin, sweet potatoes, winter squash
• Adzuki beans, cannellini beans, kidney beans, lima beans, lentils, navy beans, soybeans, split peas, tofu, tempeh

HEALTHY FATS
Nuts, seeds, avocados and olives. Minimize or eliminate extracted oils and processed fats (such as margarine).

LEAN MEAT, POULTRY & FISH (optional)

FRUIT
Apples, oranges, bananas, stone fruit, berries, melons, pineapple, pears, grapes, lemons, limes, grapefruit

WATER
Choose water as your primary beverage.

SWEETENER
Sweeten foods naturally with fresh and dried fruits. Use honey and other whole food sweeteners sparingly.

SALT
Minimize salt intake by using no/low sodium ingredients when cooking meals and salt sparingly, if at all, at the table to taste.

Stay inspired! Keep your meals tasty and interesting with herbs, spices, vinegars, lemon and lime. They don’t rely on fat, sugar or salt for flavor.
Prep for Success

There are no two ways about it—when you eat mostly whole foods, you spend more time preparing meals than you would heating up frozen dinners. The good news is that the extra time in the kitchen is a great investment in your health. And there are always time-saving tips!

**TIME-SAVING TIP**
Shop and then wash, chop and store veggies once or twice a week to minimize cooking time on other days.

**Cook ahead to get ahead**

**TIME-SAVING TIP**
No prep needed if you shop the frozen aisle for greens, vegetables and fruits. Plus, you can use as little as you need and return the package to the freezer.
GET COOKING WITH WHOLE GRAINS

**STEP 1**
Choose your grain and boil the noted amount of water.

**STEP 2**
Add chosen grain, return the pot to a boil, cover, reduce heat and simmer until liquid is absorbed and grain is tender.

**STEP 3**
Fluff with a fork before serving.

**TIME-SAVING TIP**
Cook extra grains and store portioned leftovers in the freezer for up to a month—you’ll be ready when you need a healthy meal in a hurry.
For a quick breakfast or snack, smoothies hit the spot. They’re also a tasty way to add greens to your morning routine. For 2 servings, choose at least one item from each row and blend your way to bliss.

**DOUBLE GREEN SMOOTHIE**

*Serves 2*

- **1½ cups** unsweetened almondmilk, ricemilk or soymilk
- 2 dried apricots or 4 pitted dates
- 1 ripe banana
- 1 cup chopped kale leaves
- 1 cup baby spinach leaves
- ¾ cup fresh or frozen berries

Combine almondmilk, apricots, banana, kale, spinach and berries in a blender and blend until smooth.

**TIME-SAVING Tip:** Roast a batch of your favorite veggies at the beginning of the week. Simply cut into bite-size pieces, toss with orange juice or balsamic vinegar and black pepper, and then cook on a parchment-paper-lined baking sheet in a 450°F oven until tender.

---

**STEP 1** Start by choosing a grain, bean and/or starchy vegetable.

**STEP 2** Add raw, steamed or roasted vegetables and, if desired, soy or animal protein.

**STEP 3** Experiment with flavorful toppings and the spice blends below.

Black Bean Salad with Avocado-Lime Dressing
Serves 4

1 ripe avocado, mashed
¼ cup chopped fresh cilantro
2 tablespoons lime juice
2 (15-ounce) cans no-salt-added black beans, rinsed and drained
4 cups shredded romaine lettuce

1 cup grape tomatoes, halved
1 cup corn kernels, fresh or thawed if frozen
1 small red bell pepper, chopped
½ cup toasted pumpkin seeds

In a large bowl, whisk together avocado, cilantro and lime juice until blended. Add beans, lettuce, tomatoes, corn, pepper, pumpkin seeds and toss until evenly coated.

**Healthy Tips:**
Transform dinner leftovers into tomorrow’s lunch. Tuck cooked ingredients in a whole grain wrap or burrito. Give beans and grains a new spin over a sweet potato or salad greens.
Satisfy everyone at the table by serving healthier versions of suppertime stand-bys. For example, replace all or part of the ground beef in recipes with beans or lentils for plant-based protein. Serve with brown rice, whole grain pasta or whole grain bread.

**Lentil Chili**
Serves 8

1 large yellow onion, chopped
1 large red bell pepper, chopped
8 cups low-sodium vegetable broth, divided
5 cloves garlic, finely chopped
4 teaspoons salt-free chili powder
1 (16-ounce) package brown lentils (about 2¼ cups lentils)
2 (15-ounce) cans no-salt-added diced tomatoes
¼ cup chopped fresh cilantro

Heat a large pot over medium-high heat. When hot, add onion and bell pepper; cook, stirring frequently, until vegetables brown and begin to stick to the bottom of the pot, about 6 minutes. Stir in 3 tablespoons of broth and continue to cook, stirring, until onion is soft and lightly browned. Stir in garlic and chili powder and cook 1 minute, stirring constantly. Add lentils, tomatoes and remaining broth. Bring to a boil, reduce heat to medium-low and simmer, partially covered, 30 minutes or until lentils are almost tender. Uncover and cook 10 minutes longer. Stir in cilantro and serve.

**Healthy Tip**
Steam fry! Instead of oil, add a splash of water, stock, fresh juice, vinegar or coconut water to your skillet. Watch a demo at wholefoodsmarket.com/healthyeating.

**Time-Saving Tip**
For healthy meals in minutes, stock up on shortcut staples, such as cans or cartons of no-salt-added lentils, beans, broth and tomatoes.
Beans and lentils deliver flavor, fiber and protein. Plus, they’re satisfying and super affordable. If your body is not used to beans, start slowly and eat them regularly.

**TIME-SAVING TIP**

Use the quick-soaking method instead of overnight. Cover beans with an inch of water and bring to a boil. Remove from heat, cover and let sit for one hour. Drain and cook as usual.

**FOCUS ON SUCCESS WITH A FOOD JOURNAL**

Recording what you eat can help you meet goals, celebrate accomplishments and stay focused on healthy changes. Use whatever style you’ll actually keep using: Old school in a paper journal or techie with computer, notebook, tablet or smartphone.

Redefine Dessert

Healthy eating doesn’t mean denial! Nuts provide richness and texture, spices pump up the flavor and fresh fruits satisfy your sweet tooth. Try this recipe with pears, stone fruit or fresh berries, too.

Raw Apple Crisp
Serves 8

4 crisp apples, such as Honeycrisp, chopped
¼ cup orange juice
¼ cup pecan halves
¼ cup hazelnuts
¼ cup raisins
¼ teaspoon ground ginger
¼ teaspoon ground cinnamon

Put apples in an 8-inch square baking dish or 2-quart casserole dish. Drizzle with orange juice, toss until the fruit is coated and smooth the top. In a food processor, combine pecans, hazelnuts, raisins, ginger and cinnamon and pulse just until chopped. Spoon the nut mixture over the apple mixture and serve.

Healthy TIP
Add flavor without adding calories by using spices such as cinnamon, nutmeg and allspice in desserts.
A little planning makes it easier to make healthy choices!
